

Great Smile Partnership

At Oxford Family Dentistry, we believe that optimal dental health occurs as the result of a partnership between the patient and the dental care team. In fact, patients who maintain regular hygiene appointments and receive regular dental treatment spend less (on average) than those who only see the dentist when a problem arises. For that reason we are pleased to offer our patients the *Great Smile Partnership*.

What is the Great Smile Partnership?

Because we value the joy of a great smile – we are offering free teeth whitening to those of our patients who choose to partner with us for their dental health needs.

What is required of the patient?

- Initial comprehensive exam, X-rays, and cleaning performed by Oxford Family Dentistry (OFD).
- Maintain continued dental hygiene care by OFD at six-month intervals.
- Compliance with minimum required treatment as presented by OFD.
- Patient to pay one time set up fee of \$50 for custom whitening trays.
- Compliance with OFD policies regarding payment and broken appointments.

Any whitening trays that need to be replaced due to loss or damage will be done so at the expense of the patient.

Participating patients will receive a free refill of whitening solution at each six-month cleaning and check-up appointment upon completion of any necessary dental treatment.

Give yourself the healthy, beautiful smile you deserve.

** Patient must be at least 18 years of age and must be determined by the dentist to have the teeth and gum health required to avoid complications. Teeth whitening may cause sensitivity in certain individuals. Potential side effects will be reviewed with the patient before the whitening procedure.*
